

Construction World's Best Projects showcases excellence in the South African building, civil engineering, supply and project management sectors. In its 16<sup>th</sup> year, the aim of Construction World's Best Projects is to recognise projects across the entire construction industry: from civil and building projects to professional services to specialist suppliers and contracts.

There are nine categories in which to enter. Projects may be entered in several categories, provided they meet the prerequisites for entering each one, and meet the criteria.

**This competition is by submission only – it is judged solely by what you submit – so it is essential to take careful note of the entry requirements.**

### Submitting entries

- Each entry must be accompanied by the completed entry form, available from [www.constructionworldmagazine.co.za](http://www.constructionworldmagazine.co.za) or by requesting it from [constr@crowm.co.za](mailto:constr@crowm.co.za)
- The maximum length for submissions is 2 000 words
- Each submission must clearly state which category is entered.
- **IMPORTANT** It is to the entrant's own advantage to address **ALL THE CRITERIA** as set out in the category being entered. If the criterium falls outside the scope of the contract, please state this. It is advantageous to use the criterium as subheader and then to address this directly.
- The written submission must be accompanied by up to six high resolution photographs with applicable captions.
- The photographs and copy must be submitted separately. The photographs must be .jpgs and the copy in Word (not PDF format).
- The submission must also contain a summary of important project information such as the client, main contract etc. – i.e. the professional team involved in the project.
- Electronic submissions only.

## Judging

A panel of independent judges from the construction industry has been appointed. These judges represent ECSA, SAICE, MBA and CIOB. They are Trueman Goba, chairman of Hatch Africa and former ECSA and SAICE president; Nico Maas, chairman of Gauteng Piling and former president of the Master Builders Association; and Rob Newberry, managing director of Newberry Development and founding president of the Chartered Institute of Building Africa.

Each criterion as set out for the various categories will be scored out of 10 – with 10 being the highest score and one being the lowest. It is therefore VERY IMPORTANT that the entries address the criterion for the particular category it is entering. If a criterion is not answered, it will be awarded a medium of five points.

In each category a 'Winner' is announced as well as a 'Highly Commended Award'. A 'Special Mention Award' may be given.

## Special issue

The December issue of *Construction World* is dedicated to the various winners and entries and is an overview of activity in the entire built industry during the past year. Contact Erna Oosthuizen, the advertising manager, if you wish to advertise in this issue. Advertising here will associate your brand with excellence.
