

UPCOMING INDUSTRY EVENTS

DEC

EnergyWeek: South Africa

WHEN: 11-12 December 2018

WHERE: Cape Town

MORE INFORMATION: www.igcs-sa.com

This meeting is a platform to explore South Africa's aspirations to build an energy hub for gas cooperation with international partners along the gas value chain. The Summit will put the objectives of South Africa and the region at the forefront of international gas development, showcasing South Africa as a gas hub. IGCS will outline the next steps of the Gas IPP Programme and the scale of opportunity for investors. This meeting will showcase gas procurement and utilisation strategies, bringing together a global gathering of energy leaders who will enable Southern Africa to achieve its objectives in becoming an energy hub for the region. This meeting is co-located with the Southern Africa Renewable Energy Summit and the Black Industrialists Energy Summit.

2019

Africa Energy Indaba

WHEN: 19-20 February 2019

WHERE: Sandton Convention Centre

MORE INFORMATION: www.africaenergyindaba.com

The Africa Energy Indaba Exhibition is highly relevant to companies actively involved in all areas relating to showcasing solutions for the benefit of Africa. This extends to services for major energy projects on the continent, rural energy solutions, urbanisation and energy needs and the renewable & sustainable energy industry and the management thereof.

By participating as an exhibitor you have an opportunity to promote your company to business counterparts, international investors, buyers and governments worldwide. This showcase will provide a platform for companies to demonstrate their commitment to provide the much needed solutions and services that will enable the African continent to embrace the challenges arising from current and future energy demands. Visitors will have the chance to network with relevant companies, attend the exhibition and the conference, and be part of one of the many side events.

Africa Lighting Expo

The concurrent Africa Lighting Expo will provide a platform for companies to demonstrate their commitment to providing the much-needed solutions and services that will enable the African continent to embrace the challenges arising from current and future energy demands. It is highly relevant to companies actively involved in all areas relating to showcasing solutions for the benefit of Africa. This extends to services for major energy projects on the continent, rural energy solutions, urbanisation, and energy needs and the renewable & sustainable energy industry and the management thereof.

Empowering women in the African energy sector

The Women in Energy Conference at the Africa Energy Indaba will cover areas such as knowledge of how men and women can join forces to create the workplace of the future; insights into the success factors of women in the C-suite; input into continuing research to empower women in the African energy sector; and a new approach to assimilating a new generation of women leaders into companies.

MARCH
